Professional Summary

With over 15 years of experience in the technology sector, I work as a Senior Software Engineer, transforming ideas into high-impact solutions. My expertise covers fullstack development with a focus on .NET Core, C#, Angular, and software architecture, building systems for Desktop, Web, and Mobile platforms. I specialize in legacy system modernization, microservices architecture, security, and complex integrations, leading teams from architectural conception to the delivery of innovative products.

Professional Experience

Rerum Engenharia de Sistemas LTDA

Senior Full Stack Software Engineer | Software Architect | C#.NET Core Angular - SQL Server
January 2016 - Present (9+ years)
Varginha, Minas Gerais, Brazil

- **Senior Full Stack Engineer — Novo Mediador | MTE (Ministry of Labour, Brazil) · April 2026 - Present:** Fullstack developer on a strategic government platform for digital mediation of labour conflicts
- Built **nm-frontend** using **Vue.js 3 + TypeScript**, delivering a modern SPA with reactive state management and accessible UI components
- Developed **nm-api** backend services handling business rules for labour mediation workflows and integrations
- Implemented **OIDC/OAuth2 authentication** via GOV.BR identity provider (SERPRO/estaleiro) with secure token handling and logout flows
- Integrated with government APIs and identity federation infrastructure (h-novomediador-hml.trabalho.gov.br)
- Followed Scrum methodology in a multidisciplinary government-contracted team

- **Security Implementation Lead at Elosgate (June 2025 - April 2026):** Deployed as senior consultant responsible for platform security implementation and enhancement
- Developed robust application for data signing and approval in Azure environment with two-factor authentication
- Utilized JWT (JSON Web Tokens) for data signing, ensuring reliability and integrity of transacted information
- **Lead and Architecture Role in SobControle Financeiro Project (January 2025 - Ongoing):** Technical lead and software architect for modernizing legacy financial system
- Complete architectural redesign, migrating from GWT and gRPC (.NET Framework) to Angular 18 and .NET Core/.NET Framework APIs
- Developed robust API gateway with .NET Core and Yarp (Reverse Proxy) and dedicated authentication API in .NET Core 8
- **Senior Consultant at ONS (2017-2024):** Worked on strategic projects maintaining legacy systems and developing new features in mission-critical environment
- Implemented microservices architecture and asynchronous communication via RabbitMQ queues using Scrum methodology
- Extensive experience with .NET Framework, WebForms, ASP.NET MVC, .NET Core, Entity Framework, SQL Server, and Informix

Instituto Dataminas

Senior Full Stack Software Engineer | C#.NET - IONIC

May 2020 - November 2021 (1 year 7 months)

Varginha, Minas Gerais, Brazil

- Complete development of mobile application using Ionic 3 for Android
- Development of website using ASP.NET MVC
- Architecture, development of main functionalities, and integration between mobile and web platforms

LEMAF - Laboratório de Estudos e Projetos em Manejo Florestal

Full Stack Developer | C#.NET - ASP.NET MVC - Angular - PostgreSQL

July 2015 - December 2015 (6 months)

Lavras e Região, Brazil

- Development of project for Brazilian federal government's Bolsa-Verde Program
- Utilized Angular for front-end and .NET Framework for back-end
- Resulted in 70% cost savings in social-environmental program's registration costs
- Increased data reliability and transparency for government program

Rerum Engenharia de Sistemas

Full Stack Developer | Java - C# - JavaScript - SQLServer - Business Intelligence

March 2008 - July 2015 (7 years 5 months)

- Development on .NET and Java platforms
- Built foundation expertise in full-stack development
- Worked with Business Intelligence solutions
- Gained experience with multiple programming languages and databases

Education

Universidade Federal de Juiz de Fora

Master of Business Administration (MBA) in IT Project Management

2013 - 2014

Universidade Presidente Antônio Carlos

Bachelor's Degree in Computer Science

2004 - 2007

Certifications

MS: Programming in C#

MCPS: Microsoft Certified Professional

Software Architecture Course (.NET)
